Technology professional with solid grounding in software development. Competent in coding, debugging, and problem-solving. Experienced in working with diverse programming languages and frameworks to build robust applications. Strong focus on collaborative teamwork and delivering high-quality code.

EDUCATION

B.Tech Information Technology   2023 - 2027
National Engineering College, Kovilpatti
- GPA: 8.0

Higher Secondary Education   2022 - 2023
Viveka Matric Hr Sec School, Sivagiri
Passed with 84.8 %

CERTIFICATES

Technical English for Engineers

The Joy of Computing Python

Introduction to Internet of Things

Networking Addressing and Troubleshooting

Data structures and Algorithms

PROJECTS

Online Examination System

Technologies Used : Java, Spring Boot, MySQL , HTML ,CSS

A full-stack web application that allows administrators to manage users, instructors to create and evaluate exams, and students to take tests and view results. Built using HTML/CSS for frontend, Java with Spring Boot for backend, and MySQL for data storage. Implemented RESTful APIs, role-based access control, and result analysis features for seamless examination workflows.
